

Monash Children's Hospital

20th Paediatric Clinical Update

Friday 3rd May 2024

Lecture Theatre 1, Monash Medical Centre, Clayton and online

Returning for its 20th year, the Monash Children's Hospital Paediatric Clinical Update offers expert-led sessions covering topics from adverse childhood experiences to off-label psychotropics, preventative health measures like adolescent vaping, and emerging practices such as medicinal cannabis use. Additionally, attendees can engage in panel discussions, allowing interactive dialogue with our experts. This year, we are introducing an optional peer review workshop designed to earn RACP Cat 3 credits.

Select from either in-person or virtual tickets. In-person tickets include morning tea and lunch, while all attendees will gain access to the event recording for future reference. Additionally, special discounts are provided for allied health professionals, trainees, and retirees.

Don't miss out and register today!
