Monash Children's Hospital

22nd Paediatric Clinical Update

This year, we're thrilled to bring you:

- **Dynamic, expert-led sessions** tackling real-world clinical challenges.
- **Hands-on peer review workshops** to earn CPD Category 3 credits.
- **Ultimate flexibility:** Join us in person or connect online—your choice!

Please **join us** to address clinical conundrums (program subject to change):

- Closing the gap in Aboriginal health outcomes
- Tricky adolescents: palpitations, eating disorders, functional disorders
- Developmental paediatrics: regression, FASD, complex behaviours
- Allergy: interactive case-based session
- Congenital urological disorders
- Hypertension
- Stem cell therapy for cerebral palsy

Register for this event

*Together, we're not just
sharing knowledge —
we're shaping the future
of paediatric care.*

Thank you for being part of the
Paediatric Update community.
